WORK & STRESS, 2000, vol. 14, no. 4, 362–364

Keyword Index

Accident rates; Veterinary surgeons; Working hours 181
Acute stressors; Organizational stress; Occupational stress; Subjective meaning; Social construction; Police; Stress 226
Attributional analysis; Perceived control; Pessimistic attributions; Job relocation 347
Autonomy; Nursing; Work stressors; Burnout 329
Behavioural control; Self-efficacy; Occupational stress 262
Bibliographic database; Library and information standards; Reformatting; Deduplication; Web interface; Bibliometrics; Occupational stress 283
Bibliometrics; Occupational stress; Bibliographic database; Library and information standards; Reformatting; Deduplication; Web interface 283
Burnout; Autonomy; Nursing; Work stressors 329
Burnout; Nurses; Laboratory technicians; Managers 35
Community health care; Occupational health; Organizational intervention; Participatory organizational intervention 1
Coping; Sexual harassment; Telephone call centres; Stress 121
Coping resources; Personality; Negative affectivity; Job insecurity; Work stress Occupational strain 213
Deduplication; Web interface; Bibliometrics; Occupational stress; Bibliographic database; Library and information standards; Reformatting 283
Demand-control; Sense of coherence; Interaction effects; Human-service work 1
Demands-control-support model; Work overload; Role clarity; Organizational support; Leadership 65
Depersonalization; Karasek's job strain model; Social support; Job satisfaction; Work performance 245
Effort-reward imbalance; Occupational stress; Job satisfaction; Job-demand control 297
Employee absence; Employee age; Tenure; Nonlinear effects; Moderation 16
Employee age; Tenure; Nonlinear effects; Moderation; Employee absence 16
Family involvement; Stability of involvement; Job involvement 51
Human-service work; Demand-control; Sense of coherence; Interaction effects 1
Individual factors; Multi-task environment; Mental-workload prediction 74
Interaction effects; Human-service work; Demand-control; Sense of coherence 1
Job-demand control; Effort-rewarded imbalance; Occupational stress; Job satisfaction 297
Job involvement; Family involvement; Stability of involvement 51
Job insecurity; Work stress; Occupational strain; Coping resources; Personality; Negative affectivity 312
Job relocation; Attributional analysis; Perceived control; Pessimistic attributions 347
Job satisfaction; Job-demand control; Effort-reward imbalance; Occupational stress 297
Job satisfaction; Work performance; Depersonalization; Karasek's job strain model; Social support 245
Karasek's job strain model; Social support; Job satisfaction; Work performance; Depersonalization 245
Laboratory technicians; Managers; Burnout; Nurses 35
Leadership; Demands-control-support model; Work overload; Role clarity; Organizational support 65
Library and information standards; Reformatting; Deduplication; Web interface; Bibliometrics; Occupational stress; Bibliographic database 283
Managers, Burnout; Nurses; Laboratory technicians 35
Meaningful change; Reliable change; Stress management; Statistical power 197
Mental-workload prediction; Individual factors; Multi-task environment 74
Moderation; Employee absence; Employee age; Tenure; Nonlinear effects 16
